

Cultural & Linguistic Diversity

The California legislature has passed **AB 1195** which states that as of July 1, 2006 all *AMA PRA Category 1 Credit™* CME activities that relate to patient care must include a cultural diversity/linguistics component. Specifically, the learner must be provided with relevant cultural diversity information relating to one or more of the following: age, gender, race, socio-economics, sexual orientation, religion, language, ethnicity, etc. that would impact the care of the patient.

The following bibliography of articles is provided to serve as a resource and adjunct to this activity.

1. [DNA methylation as a therapeutic target in hematologic disorders: recent results in older patients with myelodysplasia and acute myeloid leukemia](#)
Björn Rüter 1, Pierre W Wijermans, Michael Lübbert DOI: 10.1532/ijh97.04094
PMID: 15481440
2. [Two conserved epigenetic regulators prevent healthy ageing.](#)
Yuan J, Chang SY, Yin SG, Liu ZY, Cheng X, Liu XJ, Jiang Q, Gao G, Lin DY, Kang XL, Ye SW, Chen Z, Yin JA, Hao P, Jiang L, Cai SQ. *Nature*. 2020 Mar;579(7797):118-122. doi: 10.1038/s41586-020-2037-y. Epub 2020 Feb 26.
PMID: 32103178
3. [DNA methylation and histone modifications as epigenetic regulation in prostate cancer \(Review\).](#)
Nowacka-Zawisza M, Wiśnik E. *Oncol Rep*. 2017 Nov;38(5):2587-2596. doi: 10.3892/or.2017.5972. Epub 2017 Sep 20.
PMID: 29048620
