

Multidisciplinary Approaches to Cancer Symposium

Welcome to the Multidisciplinary Approaches to Cancer Symposium, in Huntington Beach, CA!

On behalf of City of Hope and the Department of Continuing Medical Education, we would like to thank you for joining us for this educational activity.

Interest and input from our participants encouraged us to continue to expand the focus of this symposium, incorporating requests and suggestions from attendees. The previous years of this symposium have been a great success and we are happy to have you join us this year.

Our goal is to provide the desired information and skills which physicians and allied health care providers need in order to better serve their patient populations and research. Your thoughts are valuable and important, so please share them with us on the evaluations at the end of each session. Links to the Evaluations will be provided at the conclusion of each session and can also be accessed under the Conference Tasks page of this e-handout.

Should you have any further questions, please visit the conference staff at the registration desk.

Multidisciplinary Approaches to Cancer Symposium

Accreditation Statement

City of Hope is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Credit Designation Statement

City of Hope designates this live activity for a maximum of 15.25 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the educational activity.

The following may apply *AMA PRA Category 1 Credit™* for license renewal:

- **Registered Nurses:** Nurses may report up to 15.25 credit hours toward the continuing education requirements for license renewal by their state Board of Registered Nurses (BRN). CME may be noted on the license renewal application in lieu of a BRN provider number.
- **Physician Assistants:** The National Commission on Certification of Physician Assistants states that *AMA PRA Category 1 Credit™* accredited courses are acceptable for continuing medical education requirements for recertification.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 15.25 Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

Disclosure

This activity has been planned and implemented in strict compliance with the accreditation requirements, standards and policies of the ACCME. City of Hope takes responsibility for the content, quality and scientific integrity of this CME activity. Faculty and Planners have provided written disclosure of all relevant commercial relationships which have been included in this handout. Any potential conflicts relative to the disclosure(s) have been resolved. City of Hope further encourages faculty/presenters to identify investigational products or off-label uses of products regulated by the U.S. Food and Drug Administration at first mention and where appropriate in the content. Please refer to the official prescribing information for each product for discussion of approved indications, contraindications, and warnings.

Multidisciplinary Approaches to Cancer Symposium

Instructions for Obtaining CME Credit (AMA PRA Category 1 Credit™):

Physicians and others who wish to receive *AMA PRA Category 1 Credit™* for this activity **must** text in the unique attendance code for this conference, daily, in order to record their attendance. During the conference you will be provided with a unique Attendance Code to record your attendance.

You will need to text in the unique attendance code to the City of Hope CME text-in number (626-314-7448). If you have not yet saved this number as contact on your cell phone, please do so now, to ensure you are ready to record your attendance. The text-in method will also be facilitated via a QR code that will be available, upon check-in, at the registration desk.

Credit Transcripts will be updated within a week to reflect your participation in this conference.

Retrieve your CME Transcripts by visiting the City of Hope CME website: <https://cme.cityofhope.org/>
Login using your Username and Password.

Quick Tip!

Have trouble remembering your password? Once you log in to your account, do not log out, so you do not have to log back in!

Once logged in, click on the My Transcripts section at the top of the page, and click on "Completed Activities". You can then print your Credit Transcript or the individual Certificate, if desired.

For assistance, contact the Department of Continuing Medical Education at 626-218-5622 or cme@coh.org.

Instructions for Obtaining ABIM MOC Points:

Physicians **and others** who wish to claim **ABIM MOC points** for this activity **must** comply with the instructions noted above to obtain *AMA PRA Category 1 Credit™* as well as the following:

- Complete and successfully pass the ABIM MOC Activity Self-Assessment, which will be made available at the conclusion of the conference.
 - Minimum passing score of 70% will be required.
 - Participants will only have two opportunities to pass the Activity Self-Assessment.
- Complete the ABIM MOC **Evaluation....**

Successful completion of the requirements noted above will award participants 15.25 Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program.

Credit Transcripts will be updated within 30 days of the conclusion of the conference, to reflect ABIM MOC points earned.

For assistance, contact the Department of Continuing Medical Education at 626-218-5622 or cme@coh.org.

Conflict of Interest Disclosure and Resolution & Core Competencies Multidisciplinary Approaches to Cancer Symposium October 8-10, 2021

City of Hope takes responsibility for the content, quality and scientific integrity of this CME activity.

As part of the commercial guidelines, we are required to disclose any real or apparent commercial conflict(s) of interest (COI) of all persons in control of educational content for this activity, specifically, but not limited to: faculty/presenters and/or planners. Any disclosed real or apparent commercial conflict(s) of interest (COI) have been resolved through a conflict resolution process prior to the beginning of this activity.

City of Hope further requires that, if applicable, faculty/presenters disclose to the audience their intention to discuss the off-label and/or investigational (not yet approved for any purpose) use of pharmaceuticals or medical devices at the beginning of their presentation.

CORE COMPETENCIES

The American Board of Medical Specialties (ABMS) and the Accreditation Council of Graduate Medical Education (ACGME) have embarked on a joint initiative to quantify and evaluate a set of 6 physician core competencies by which the individual physician will be measured for Residency Certification, Board Certification and more recently, Maintenance of Certification (MOC). Individual hospitals and other health care delivery organizations will now also be evaluated by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) on their practice and demonstration of the 6 core competencies.

In brief, the actual term “core competencies” refers to those six abilities (competencies) that are central (core) to the practice of medicine, specifically: (1) Practice-Based Learning and Improvement, (2) Patient Care, (3) Systems-Based Practice, (4) Medical Knowledge, (5) Interpersonal and Communication Skills and (6) Professionalism. To assist our conferees in demonstrating their completion of CME in the six core competencies, the educational content of each presentation will be noted by numbers 1-6 in the table below. CME certificates for this activity will reflect those core competencies addressed by the educational content of the overall conference.

CORE COMPETENCIES INFORMATION SHEET

PATIENT CARE

Physicians must be able to provide patient care that is compassionate, appropriate, and effective for the treatment of health problems and the promotion of health.

CME programs address these issues if they address topics related to:

- The ability to communicate effectively and demonstrate caring and respectful behaviors when interacting with patients and their families;
- gathering essential and accurate information about their patients
- making informed decisions about diagnostic and therapeutic interventions based on patient information and preferences, up-to-date scientific evidence, and clinical judgment
- developing and carrying out patient management plans
- counseling and educating patients and their families
- using information technology to support patient care decisions and patient education
- performing competently all medical and invasive procedures considered essential for the area of practice
- providing health care services aimed at preventing health problems or maintaining health
- working with health care professionals, including those from other disciplines, to provide patient-focused care

MEDICAL KNOWLEDGE

Physicians must demonstrate knowledge about established and evolving biomedical, clinical, and cognate (e.g. epidemiological and social-behavioral) sciences and the application of this knowledge to patient care. **CME programs address these issues if the topics relate to:**

- demonstration of an investigatory and analytic thinking approach to clinical situations
- knowledge and application of the basic and clinically supportive sciences which are appropriate to their discipline

PRACTICE-BASED LEARNING AND IMPROVEMENT

Physicians must be able to investigate and evaluate their patient care practices, appraise and assimilate scientific evidence, and improve their patient care practices.

CME programs address these issues if the topics relate to:

- analyzing practice experience and performing practice-based improvement activities using a systematic methodology
- locating, appraising, and assimilating evidence from scientific studies related to their patients' health problems
- obtaining and using information about their own population of patients and the larger population from which their patients are drawn
- applying knowledge of study designs and statistical methods to the appraisal of clinical studies and other information on diagnostic and therapeutic effectiveness
- using information technology to manage information, access on-line medical information; and support their own education
- facilitating the learning of students and other health care professionals

INTERPERSONAL AND COMMUNICATION SKILLS

Physicians must be able to demonstrate interpersonal and communication skills that result in effective information exchange and teaming with patients, their patients families, and professional associates. **CME programs address these issues if the topics relate to:**

- creating and sustaining a therapeutic and ethically sound relationship with patients
- using effective listening skills and eliciting and providing information using effective nonverbal, explanatory, questioning, and writing skills
- working effectively with others as a member or leader of a health care team or other professional group

PROFESSIONALISM

Physicians must demonstrate a commitment to carrying out professional responsibilities, adherence to ethical principles, and sensitivity to a diverse patient population. **CME programs address these issues if the topics relate to:**

- demonstrating respect, compassion, and integrity; responsiveness to the needs of patients and society that supersedes self-interest; accountability to patients, society, and the profession; and a commitment to excellence and on-going professional development
- demonstrating a commitment to ethical principles pertaining to provision or withholding of clinical care, confidentiality of patient information, informed consent, and business practices
- demonstrating sensitivity and responsiveness to patients' culture, age, gender, and disabilities

SYSTEMS-BASED PRACTICE

Physicians must demonstrate an awareness of and responsiveness to the larger context and system of health care and the ability to effectively call on system resources to provide care that is of optimal value. **CME programs address these issues if the topics relate to:**

- understanding how their patient care and other professional practices affect other health care professionals, the health care organization, and the larger society and how these elements of the system affect their own practice
- knowing how types of medical practice and delivery systems differ from one another, including methods of controlling health care costs and allocating resources
- practicing cost-effective health care and resource allocation that does not compromise quality of care
- advocating for quality patient care and assisting patients in dealing with system complexities
- knowing how to partner with health care managers and health care providers to assess, coordinate, and improve health care and knowing how these activities can affect system performance
