CONFLICT OF INTEREST DISCLOSURE AND RESOLUTION

City of Hope takes responsibility for the content, quality and scientific integrity of this CME activity.

As part of the commercial guidelines, we are required to disclose any real or apparent commercial conflict(s) of interest (COI) of all persons in control of educational content for this activity, specifically, but not limited to: faculty/presenters and/or planners. Any disclosed real or apparent commercial conflict(s) of interest (COI) have been resolved through a conflict resolution process prior to the beginning of this activity.

City of Hope further requires that, if applicable, faculty/presenters disclose to the audience their intention to discuss the off-label and/or investigational (not yet approved for any purpose) use of pharmaceuticals or medical devices at the beginning of their presentation.

CORE COMPETENCIES

The American Board of Medical Specialties (ABMS) and the Accreditation Council of Graduate Medical Education (ACGME) have embarked on a joint initiative to quantify and evaluate a set of 6 physician core competencies by which the individual physician will be measured for Residency Certification, Board Certification and more recently, Maintenance of Certification (MOC). Individual hospitals and other health care delivery organizations will now also be evaluated by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) on their practice and demonstration of the 6 core competencies.

In brief, the actual term “core competencies” refers to those six abilities (competencies) that are central (core) to the practice of medicine, specifically: (1) Patient Care, (2) Medical Knowledge, (3) Practice-Based Learning and Improvement, (4) Interpersonal and Communication Skills, (5) Professionalism and (6) Systems-Based Practice. To assist our conferees in demonstrating their completion of CME in the six core competencies, the educational content of each presentation will be noted by numbers 1-6 in the table below. CME certificates for this activity will reflect those core competencies addressed by the educational content of the overall conference.
